

Maths

Children will cover place value, number bonds, partitioning, addition, subtraction, multiplication, division, fractions, percentages, decimals, 12/24 hr clock, problem solving 2D and 3D shapes

Computing

This term in computing we will continue to develop word processing skills through the use of Microsoft Word and Powerpoint, as well as producing graphs and spreadsheets.

ART/DT

This term we will be observing the art of John Piper, and using techniques and subjects inspired by Piper to paint our own architectural pictures.

We will also continue our work on nutrition by planning, preparing and evaluating healthy meals and menus.

English

Learning and using features identified in reading, including adventure stories, Biographies, Reports and letter writing. This term we will also be reading, writing and performing a range of poetry and fiction texts.

Year 3

Creative Planning: Where's Wally You are what you eat!

GEOGRAPHY

We will be learning about our locality alongside human and physical features of different settlements.

SCIENCE

We will be investigating plants; labelling and understanding parts of plants, requirements for life and processes. Followed by comparing animals and humans, through studying muscles and skeletons, nutrition, and other physiological systems.

PE

Children will take part in a range of Athletic activities, and develop skills required to play Netball.

MUSIC

We will begin to control our voice, including pitch and tone, with various singing exercises. Furthermore, we will begin to read and play sheet music, with recorders and glockenspiels.

HISTORY

We will begin a local history study, looking at how Uxbridge and surrounding areas have changed over time. Including exploring trade, schooling and architecture including churches.
