

MATHS

Children will be strengthening their knowledge of place value by adding and subtracting decimal numbers. They will be solving problems to do with money and will build their skills in mental and written methods of multiplication and division. Also they will be learning about the relationships between fractions, decimals and percentages; and later, multiplying and dividing fractions. They will also be learning about algebra.

COMPUTING

This term the children will be learning about radio broadcasts and creating some of their own. As well as this, the children will be using their knowledge of coding to create a game based on The Battle of Britain in small groups.

ENGLISH

The children will be learning the names and meanings of a wide range of grammatical terms and skills needed to enhance their writing. They will practice these skills when writing a diary from the perspective of characters from texts we have read and clips we have watched. They will also be writing an information text, a short description of a setting which will include dialogue.

ART/DT

In DT lessons children will be building an Anderson Shelter from wood. In Art lessons the children will be creating their own propaganda posters.

SCIENCE

Animals and Humans

Over the next 12 weeks the children will be learning about the human body and comparing it to animals. They will learn about the heart, circulatory systems, gaseous systems, the lungs, blood, effect of exercise on pulse rate and keeping our bodies healthy.

Creative Planning: The Battle of Britain

RE

This term's unit will be on Christian religious buildings and what we can learn from them.

GEOGRAPHY

Our geography unit this term is based on geographical knowledge. The children will be naming and locating: cities in the UK, countries and geographical regions, using an atlas. They will also learn about the position and significance of latitude, longitude, Equator, Northern/Southern Hemisphere and the Arctic/Antarctic circles. The unit covers human and physical features of various locations and the changes to them over time.

MUSIC

During Music lessons the children will be listening to various music types such as Jazz and Old School Hip Hop. They will be playing various instruments, composing their own pieces, improvising and performing.

HISTORY

The history topic this term will be Winston Churchill and World War 2. This unit will cover historical people and events of this time including the Battle of Britain and The Blitz. They will also learn about the causes, impact and changes to Britain as a result. The children will also have a chance to see and learn about a variety of historical artefacts.

PE

This term the children will be learning how to play hockey during outdoor PE and also dance during indoor PE.
